

# QGIS Application - Bug report #15979

## %20 in QGIs project file

2016-12-13 03:36 AM - Stephen Remde

<b>Status:</b> Closed	
<b>Priority:</b> Normal	
<b>Assignee:</b>	
<b>Category:</b> QGIS Server	
<b>Affected QGIS version:</b> 2.16.1	<b>Regression?:</b> No
<b>Operating System:</b>	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	<b>Resolution:</b> no timely feedback
<b>Crashes QGIS or corrupts data:</b>	<b>Copied to github as #:</b> 23895
<b>Description</b>	
Not sure if this is a windows/linux or a qgis desktop/qgis server incompatibility, but this should be enough information to pinpoint it:	
1) Create a project in QGIS windows (tested with 2.16.1)	
2) Add a CSV delimited layer where the filename contains a space	
3) Use this project with QGIS server on linux (tested with libqgis-server2.14.3 ubuntu 14.04)	
QGIS server will fail to load the layers	
4) replace %20 with a space in the project file, and this will fix the problem	

### History

#### #1 - 2016-12-13 11:44 PM - Saber Razmjooei

- Category changed from Project Loading/Saving to QGIS Server

#### #2 - 2017-05-01 01:01 AM - Giovanni Manghi

- Regression? set to No

- Easy fix? set to No

#### #3 - 2017-10-20 10:18 AM - René-Luc ReLuc

- Description updated

- Status changed from Open to Feedback

Has it been fixed in 2.18 ?

#### #4 - 2018-11-11 12:59 AM - Jürgen Fischer

- Resolution set to no timely feedback

- Status changed from Feedback to Closed
