QGIS Application - Bug report #16026
Value map entries aren't copied with table style (2.99 110ffe2)

2016-12-31 04:42 PM - Patrick Dunford

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	Unknown			
Affected QGIS version:	master	**Regression?:**	No	
Operating System:	Xubuntu	**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**	not reproducable	
Crashes QGIS or corrupts data:		**Copied to github as #:**	23941	

Description

In 2.14 and earlier versions, when a table's style is copied and then pasted to another table, the pasted data includes the list entries for any value maps that are present for individual table fields.

In 2.99, the value map entries are not being copied in the tables which are the subject of bug report #16020.

History

- Category set to Unknown

#3 - 2017-10-02 06:26 AM - Patrick Dunford

This issue seems to be resolved in master 2.99 313ec55

#4 - 2017-10-02 06:31 AM - Patrick Dunford

Steps for testing:

1. Save a copy of a table
2. Copy the style from the original table to the new table
3. When you open the table for the first time, value map fields only display the value field, not the description
4. Save or close the table
5. When you open the table again, the value map fields display the description.

- Description updated

- Status changed from Open to Feedback

Still valid in 2.18?

#6 - 2018-01-29 05:04 AM - Nyall Dawson

I can't reproduce on current master - please confirm whether this is still an issue.

#7 - 2018-02-22 12:53 PM - Giovanni Manghi

- Resolution set to not reproducable

- Status changed from Feedback to Closed

Closing for lack of feedback, please reopen if necessary.
