

QGIS Application - Feature request #16047

Use the raster band names when available

2017-01-06 09:22 AM - Michael Gajdus

Status:	Closed	Resolution: Copied to github as #: 23962
Priority:	Normal	
Assignee:		
Category:	GUI	
Pull Request or Patch supplied:	Yes	
Easy fix?:	No	
Description		
<p>It would be extremely useful if QGIS Desktop used the raster band names (when available) in, for example, the layer styling band selection and histogram menus. Perhaps a tick box in the general options.</p>

Revision b86f84ed - 2018-10-09 06:36 AM - AndrewAnnex

Use raster band names in QGIS [FEATURE] [needs-docs]

- fixes #16047
- extracts band name info using gdalapi in QgsGdalProvider
- added configuration option to allowing user to select band name behavior
- currently 5 ways including current default behavior: #, name, name (#), # (name), _DIM_EXTRA metadata
