

QGIS Application - Bug report #16084

Create constant raster layer not working

2017-01-16 06:52 AM - matteo ghetta

Status: Closed	
Priority: High	
Assignee: Victor Olaya	
Category: Processing/QGIS	
Affected QGIS version: master	Regression?: No
Operating System: Ubuntu	Easy fix?: No
Pull Request or Patch supplied: no	Resolution: fixed/implemented
Crashes QGIS or corrupts data: no	Copied to github as #: 23998

Description

QGIS master fresh compiled and at least 4 different raster data sources tried (processing/tests/testdata/raster.tif and processing/tests/testdata/dem.tif) but always the same error:

Algorithm Create constant raster layer starting...
Can't convert 'int' object to str implicitly See log for more details

LOG:

```
2017-01-16T15:54:11 2 Uncaught error while executing algorithm

```

History

#1 - 2017-01-18 01:11 AM - Alexander Bruy

- Resolution set to fixed/implemented
- OS version deleted (sarah)
- Operating System deleted (Linux mint)
- Status changed from Open to Closed

Should be fixed in master
