

# QGIS Application - Bug report #16106

## Duplicate function for showing all labels

2017-01-24 02:09 AM - Paolo Cavallini

<b>Status:</b> Closed	
<b>Priority:</b> Normal	
<b>Assignee:</b>	
<b>Category:</b> Labelling	
<b>Affected QGIS version:</b> master	<b>Regression?:</b> No
<b>Operating System:</b>	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b> No	<b>Resolution:</b> invalid
<b>Crashes QGIS or corrupts data:</b> No	<b>Copied to github as #:</b> 24018
<b>Description</b>	
<p>I see that in QGIS 3 the function (Layer Properties &gt; Labels) "Show all labels etc." is present both in the "Rendering" tab and in the "Automatic placement settings" (top right). Apparently this is a duplication, better get rid of it.</p>	

### History

#### #1 - 2017-01-24 01:44 PM - Nyall Dawson

Actually it's just a wording issue - one applies only to the current layer, the other applies to all labels from every layer. The phrases should be tweaked for clarity.

#### #2 - 2017-01-24 03:34 PM - Nyall Dawson

Actually I double checked and the wording is quite explicit - one is for the current layer, the other states "for all layers". Might be a bad translation?

#### #3 - 2017-01-24 11:37 PM - Paolo Cavallini

- Resolution set to invalid
- Status changed from Open to Closed

You are right, and the translation is correct. The window was just small enough to cover the relevant part. Sorry about the noise.
