<b>Pull Request or Patch supplied:</b>	<b>Resolution:</b> fixed/implemented
<b>Crashes QGIS or corrupts data:</b>	<b>Copied to github as #:</b> 24033
<b>Description</b>	
When looking at the statistics table of a field, if it's: <ul style="list-style-type: none"><li>- a numeric type, an item is called "Missing (null) values"</li><li>- a string type, the, I assume, same kind of entry is called "Count (missing)"</li></ul>	
It could be nice to use the same vocabulary	

#### History

##### #1 - 2017-04-27 10:56 PM - Alexander Bruy

- Resolution set to fixed/implemented
- Status changed from Open to Closed

Seems fixed in master. Please reopen if necessary.
