

## QGIS Application - Feature request #1614

### Query Builder closes after query

2009-04-02 07:03 AM - barpasen -

<b>Status:</b> Closed	
<b>Priority:</b> Low	
<b>Assignee:</b> nobody -	
<b>Category:</b> Data Provider	
<b>Pull Request or Patch supplied:</b>	<b>Resolution:</b> wontfix
<b>Easy fix?:</b> No	<b>Copied to github as #:</b> 11674
<b>Description</b>	
After a complex query with the Query Builder it would be nice if the Query Builder window stayed open and the query could eventually be altered

- Resolution set to wontfix
- Status changed from Open to Closed

Actually after building the query and clicking "ok", the query stays in the "subset" textbox. If you click again on "query builder", the query is still available in the "sql where clause" textbox and you can edit it.

Reopen if necessary.
