It may be resolved. I (and others) recompiled a new checkout yesterday and the problem is gone.

A commit between the report date & time and yesterday (UTC 10.00) must have resolved the problem.

Just in case someone else is interested : I got the same issue and managed to track it down to the python-qscintilla-qt5 version used in Archlinux. 2.9.3 has the problem, updating the package to 2.9.4 resolves it.
