

QGIS Application - Feature request #16168

Log Messages Panel: individually increase WMS provider message limitation

2017-02-09 04:40 AM - Andre Parplies

Status:	Open	Resolution: Copied to github as #: 24078
Priority:	Normal	
Assignee:		
Category:	Data Provider	
Pull Request or Patch supplied:	No	
Easy fix?:	No	
Description		
<p>As it is hard-wired in the QGIS code, not more than 100 error messages/warnings are logged in the messages panel for the WMS-provider. If one would like to catch signals coming from the WMS-Provider, this would only be possible for the first 100 signals/messages...</p> <p>A feature that allows to increase the limitation individually (e.g. in project properties) would be nice to have.</p> <p>(see source code section: https://github.com/qgis/QGIS/blob/90d233ad3098223cd2bc536f2ec5ca1641b7595f/src/providers/wms/qgswmsprovider.cpp#L3658)</p> <p>See my corresponding issue on gis.stackexchange here:http://gis.stackexchange.com/questions/224879/how-to-solve-issue-with-log-messages-panel-in-qgis-not-logging-more-than-100-r</p>
