Go to Help --> Sponsors menu The list displayed is entitled "Sponsors for QGIS 2.16" in QGIS 2.18.3 (or master) Andreas, I guess you better know who can take in charge this kind of thing, if it's not only the title that needs a fix.

I don't know exactly - but this list probably represents the past sponsors at the time of the 2.16.0 release - and isn't updated with each minor release.

Instead of pulling it into QGIS, it might make sense to open the sponsor page <http://www.qgis.org/en/site/about/sponsorship.html> in a webbrowser instead.

Or live-load this page in QGIS. Whatever is better ...
