QGIS Application - Bug report #16175
Incorrect options in v.drap dialog

2017-02-10 02:17 AM - Jonathan Ball

Status:	Closed			
Priority:	Normal			
Assignee:	Giovanni Manghi			
Category:	Processing/GRASS			
Affected QGIS version:	2.18.7		**Regression?:**	No
Operating System:			**Easy fix?:**	No
Pull Request or Patch supplied:			**Resolution:**	
Crashes QGIS or corrupts data:			**Copied to github as #:**	24085

Description

In the v.drape dialog, the sampling method has three options (nearest, bilinear and cubic). The last one is invalid and not acceptable according to the GRASS documentation. It should be 'bicubic'. I think this is probably a very simple matter of changing the descriptor txt file associated with the dialog (i.e. it is a QGIS dialog definition problem not a GRASS one).
