

QGIS Application - Bug report #16191

Zonal statistics "not a sequence" error

2017-02-14 05:04 AM - Erik Stange

| | |
|---|-------------------------------------|
| Status: Closed | |
| Priority: Normal | |
| Assignee: | |
| Category: Unknown | |
| Affected QGIS version: 2.18.2 | Regression?: No |
| Operating System: Windows | Easy fix?: No |
| Pull Request or Patch supplied: No | Resolution: invalid |
| Crashes QGIS or corrupts data: No | Copied to github as #: 24101 |
| Description | |
| When attempting to run Zonal statistics from Processing Toolbox (QGIS geoalgorithm), dialog window reads "Not a sequence" | |
| Log output reads as follows: | |
| 2017-02-14T10:11:56 2 Uncaught error while executing algorithm | |
| Traceback (most recent call last): | |
| Traceback (most recent call last): File "C:/Users/erik.stange/.qgis2/python/plugins\processing\core\GeoAlgorithm.py", line 227, in execute self.processAlgorithm(progress) File "C:/Users/(username)/.qgis2/python/plugins\processing\algs\qgis\ZonalStatistics.py", line 113, in processAlgorithm (startColumn, startRow) = mapToPixel(xMin, yMax, geoTransform) File "C:/Users/(username)/.qgis2/python/plugins\processing\tools\aster.py", line 68, in mapToPixel gdal.InvGeoTransform(geoTransform)[1], mX, mY) TypeError: not a sequence | |
| Zonal statistics algorithm from "Raster" dropdown menu functions without issue. | |

History

#1 - 2017-03-06 02:44 AM - Ulrich Berger

I found out, that after simply replacing the old outdated

```
=>> file ../.qgis2/python/plugins/processing/tools/raster.py
```

with the newest file downloaded from the github-qgis-master-branch

```
=>> (https://raw.githubusercontent.com/qgis/QGIS/master/python/plugins/processing/tools/raster.py)
```

the Zonal statistics-Tool from the Processing Toolbox runs without errors!

#2 - 2017-03-06 04:15 AM - Giovanni Manghi

- Resolution set to invalid

- Status changed from Open to Closed

| *the Zonal statistics-Tool from the Processing Toolbox runs without errors!*

Processing is no more updated (as plugin) within the life of a specific release, so there MUST be no more

.qgis2/python/plugins/processing

folder

If there is then you have a old Processing version, masking the new one shipped by default, and likely to not work as expected.
