

QGIS Application - Bug report #16209

Attributes multi-edit: fields with spinbox widget are not cleared when different values

2017-02-19 09:34 AM - Harrissou Santanna

Status:	Feedback	
Priority:	Normal	
Assignee:		
Category:	Unknown	
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 24119
Description		
<p>Select some features of a vector layer and in its attribute table enable the multi-edit tool.</p> <p>In the form view that is opened, if you have different values for a field, that field appears empty. But if you had applied a range widget on one of your fields, you'll notice that it keeps showing one of the existing values instead of clearing the field.</p>
