

QGIS Application - Bug report #16212

Symbol (Marker line) placement: missing option in data-defined override

2017-02-21 05:34 AM - Harrissou Santanna

Status: Closed	
Priority: Normal	
Assignee:	
Category: Unknown	
Affected QGIS version: 2.18.3	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied:	Resolution:
Crashes QGIS or corrupts data:	Copied to github as #: 24122
Description	
Symbolize a line layer with the Marker line symbol layer type In the Marker placement section, the first "data-defined override" button description doesn't list "every curve point" as expected input. I wonder if it's implemented (didn't check though)	

Associated revisions

Revision 3b016466 - 2017-02-22 06:43 AM - Nyall Dawson

Add missing "interval" and "curvepoint" modes to data defined line marker (fix #16212)
