QGIS Application - Feature request #16289
Allow multiple output categories in Processing - Extract by attribute

2017-03-05 01:40 PM - Magnus Nilsson

Status:	Closed		
Priority:	Normal

Pull Request or Patch supplied:	No	**Resolution:**	
Easy fix?:	No	**Copied to github as #:**	24199

Description

It should be possible to configure more than one category of output in the tool "Extract by attribute". Currently, I can only choose one type, such as "Person = A" and if I would like to handle more cases, I have to use multiple copies of the tool. It would be better if I could handle more cases (Person A, B, C...) in the same tool.

History
