

QGIS Application - Feature request #16307

Batch Processing Can Only Remove Last Entry

2017-03-07 09:05 AM - Spencer Gardner

Status:	Open	
Priority:	Normal	
Assignee:		
Category:	Processing/Core	
Pull Request or Patch supplied:		Resolution:
Easy fix?:	No	Copied to github as #: 24217
Description		
<p>If I want to remove a line from my batch process, the interface only allows me to remove the last line of the entire list. This is a problem when I use saved batch settings because I may only want to run the last few lines in the batch process but there is no way to remove the first lines.</p> <p>How to replicate:</p> <ol style="list-style-type: none"><li>1. Open a batch process dialog</li><li>2. Add multiple lines</li><li>3. Select the top line</li><li>4. Click the button to remove a line</li></ol> <p>What happens:</p> <p>The last line in the batch process is removed.</p> <p>What should happen:</p> <p>The line that is selected is removed.</p>
