

QGIS Application - Bug report #16312

missing icons in Processing script editor

2017-03-07 11:45 AM - Andreas Plesch

Status: Closed	
Priority: Normal	
Assignee:	
Category: Processing/GUI	
Affected QGIS version: 2.18.3	Regression?: No
Operating System: Gentoo linux	Easy fix?: No
Pull Request or Patch supplied: No	Resolution:
Crashes QGIS or corrupts data: No	Copied to github as #: 24222
Description	
The Cut, Copy, Paste, Undo and Redo icons are missing in the Processing script editor. See attached screenshot . Since the tool tips still work, this is not critical.

Cannot confirm on 2.18.4 on Ubuntu 16.04. Please try 2.18.4 and report back, thanks.

#2 - 2017-03-08 07:24 AM - Andreas Plesch

Will do when 2.18.4 becomes available on Gentoo. But I think it may be a platform issue and will file a bug on the gentoo bugtracker.

if it is please then close this ticket, thanks!

#4 - 2017-03-08 08:16 AM - Andreas Plesch

The issue subsists in 2.18.4 on Gentoo. I filed a bug report:

https://bugs.gentoo.org/show_bug.cgi?id=612066

When confirmed on Gentoo I can close here.

- Status changed from Feedback to Closed

It was a matter of having obsolete files .qgis2/processing from a previous installation. I am closing this.
