

QGIS Application - Feature request #1633

editing GRASS tables

2009-04-05 11:18 AM - Paolo Cavallini

Status:	Closed	
Priority:	Low	
Assignee:	nobody -	
Category:	GRASS	
Pull Request or Patch supplied:		Resolution: duplicate
Easy fix?:	No	Copied to github as #: 11693
Description Currently to edit GRASS tables one has to: <ul style="list-style-type: none">- start the GRASS vector edit tool- click on the table icon on the GRASS editing tool window- select an element Then the table pops up, and editing can be made. However, changing several elements by hand is cumbersome. It would be good if the could be made from the main table window.
