

QGIS Application - Bug report #16350

Spatial Bookmark Panel: precision gets trimmed

2017-03-13 06:28 AM - Tobias Wendorff

Status: Closed	
Priority: Normal	
Assignee: Alessandro Pasotti	
Category: Map Tools	
Affected QGIS version: 2.18.4	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied: Yes	Resolution: fixed/implemented
Crashes QGIS or corrupts data: No	Copied to github as #: 24260

Description

I believe this is a bug, since it simply makes no sense.

When creating a bookmark, it gets stored at high precision. Whenever you touch it, f.e. click into xMin, the precision gets limited to two digits. This might only be a GUI problem, since it's impossible to enter more than two digits at all.
