

QGIS Application - Feature request #16387

Opacity of raster not changing in Print Composer

2017-03-27 07:22 PM - Brent Fallarcuna

Status: Open	
Priority: Normal	
Assignee:	
Category: Map Legend	
Pull Request or Patch supplied:	Resolution:
Easy fix?: No	Copied to github as #: 24296
Description	
<p>I am adjusting my raster DEMS opacity. I set the 0-100 m (white) elevation's raster opacity to 0% so that the flat areas of my land are clearly seen.</p> <p>As I add this raster to my legend, the opacity does not change. Unfortunately, I cannot use a white background for my legend as a turnaround solution because my legend background also had an adjusted opacity.</p> <p>I am repeatedly experiencing this bug every time I try to add a raster legend with adjusted opacity.</p>
