<b>Description</b>	
As I often use same/similar expressions in the 'Select by expression' dialog, I miss a combo box with previous expressions.	

#### History

##### #1 - 2017-04-10 11:36 PM - Simon Gröchenig

By selecting one of the previous expressions, it can be inserted into the text field.

I think this is not a bug but a feature request.

Anyway in "Select by expression" (QGIS 2.18.17) it's already there a "Recent selection" item (look at attachment): I believe this is enough !?
