<b>Description</b>	
<p>I've noticed that on both my Mac's, some CRS are missing. In particular, I can't find EPSG 6708, that's used from few years in my region. I know I can make a custom CRS, and I did, but it will be nice that CRS will be updated for Mac version as they are on windows, so I can use the right EPSG cose.</p>
