

QGIS Application - Bug report #16505

Network drive disappear on windows 7

2017-05-03 11:34 AM - dany Lefevre

Status: Closed	
Priority: High	
Assignee:	
Category: Vectors	
Affected QGIS version: 2.18.7	Regression?: Yes
Operating System: Windows 7 professional	Easy fix?: No
Pull Request or Patch supplied: No	Resolution: no timely feedback
Crashes QGIS or corrupts data: No	Copied to github as #: 24411
Description	
<p>I use a windows seven 64bit professional edition, with OSGEOW installation. Qgis is in 2.18.7 fresh installation.</p> <p>I attach shp file and i do a filter (same result without filters). And i would like to save file in subdirectory of source file with the same name.(with another name I have the same problem)</p> <p>Save file is created but the network drive is disconnected, I can't reconnect drive after many test.</p> <p>I Tried to save a local shp to network drive without problem.</p>

Insufficient detail to reproduce/fix.

Is this still an issue?
