Pull Request or Patch supplied:	Resolution:
Easy fix?: No	Copied to github as #: 24427
Description	
<p>Open a print composer, add an attribute table</p> <p>In Item properties --> Feature Filtering, the "Maximum rows option is set to 30 by default.</p> <p>When you do not know the number of rows that could be returned by the attribute settings, manipulating this limit is not obvious (I actually put a big value).</p> <p>Would be nice to have this as a checkbox:</p> <ul style="list-style-type: none">- unchecked state means to show all the rows;- and checked state enable the spinbox and offers the user ability to fill the maximum value.
