Crashes QGIS or corrupts data:		**Copied to github as #:**	24463	

Description

Hey,

I use the Map Composer in QGIS (German Language Version). Since I updated QGIS from QGIS 2.18.6 (or 2.18.5, I'm not sure) to QGIS 2.18.7, the Print Composer ignore raster layers when I use the option "Lock layers for map item" after closing and reopening the QGIS-File. For vector layers everything is fine.

Best regards

Steve
