

QGIS Application - Bug report #16633

Vector menu is duplicated

2017-05-28 11:24 AM - Romain Blanc

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Translations and international	
Affected QGIS version:	2.18.9	Regression?: Yes
Operating System:	W10x64	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: fixed/implemented
Crashes QGIS or corrupts data:	No	Copied to github as #: 24533
Description In QGIS 2.18.8 and 2.18.9, the vector menu is shown twice (one after the Plugin menu and one after the Help menu). The second contains the following tools: search, geoprocessing, geometry, analysis, data management. It seems this bug is linked with the french language because the second Vector (Vecteur) is not translated in english when I change the language of QGIS. See screenshots and video attached.

History

#1 - 2017-05-28 11:28 AM - Romain Blanc

- File montage.jpg added

#2 - 2017-05-28 04:15 PM - Giovanni Manghi

- Category changed from GUI to Translations and international

#3 - 2017-05-28 04:18 PM - Jürgen Fischer

- Status changed from Open to Feedback

Do you have a local processing plugin (in you private .qgis2/python/plugins)?

#4 - 2017-05-28 04:34 PM - Romain Blanc

- File plugins.PNG added

No "processing" folder in my user directory .qgis2/python/plugins.

#5 - 2017-05-28 05:53 PM - Jürgen Fischer

- Related to Bug report #15118: [Processing] Options dialog remove vector menu entries added

#6 - 2017-05-28 05:55 PM - Jürgen Fischer

- Related to Bug report #14535: fix duplicate entries in the vector menu caused by ftools on version upgrade added

#7 - 2017-05-29 11:02 AM - Andre Joost

I experienced the same some time ago with the German locale: #15330

After the translation was fixed, I still had to remove .qgis2 from the registry (see #15118) and the user folder.

#8 - 2017-06-03 11:35 PM - Jürgen Fischer

- Resolution set to fixed/implemented
- Status changed from Feedback to Closed

After the translation was fixed, I still had to remove .qgis2 from the registry (see #15118) and the user folder.

The pull request mentioned in that ticket was merged. Use the "Reset to defaults" in the processing configuration dialog.
