

QGIS Application - Feature request #16642

Add for a lot of tools the possibility of working only with selected feature

2017-05-31 11:14 AM - Julien Monticolo

Status: Closed	
Priority: Normal	
Assignee: Victor Olaya	
Category: Processing/GUI	
Pull Request or Patch supplied:	Resolution: fixed/implemented
Easy fix?: No	Copied to github as #: 24542
Description	
<p>Hello,</p> <p>For create a buffer for example (and a lot of others processing and GDAL tools) add the possibility to work only with selected feature. I know that a GDAL script doesn't take the selection parameter because it isn't a GIS software, but in QGIS, I think it will be a nice to have feature.</p>

- Status changed from Open to Feedback

This option is already available in Processing, can you be more specific?

#2 - 2017-05-31 11:45 AM - Julien Monticolo

Ok, I discover again a great function of QGIS ...

But I modify my request :

Because it's a hidden feature (the user isn't aware that the tool will only work on selected feature), let the user choose between work on the whole layer or only selected features, like in the spatial query plugin (check box).

#3 - 2017-06-23 02:10 PM - Nyall Dawson

- Resolution set to fixed/implemented

- Status changed from Feedback to Closed

This is fixed in master

#4 - 2017-06-23 02:13 PM - Julien Monticolo

Thanks a lot !
