

QGIS Application - Feature request #16651

Hide non accessible / restricted WMS / WMTS layers

2017-06-01 01:18 PM - Chris Buckmaster

Status:	Open	Resolution: Copied to github as #: 24551
Priority:	Normal	
Assignee:		
Category:	Web Services clients/WMS	
Pull Request or Patch supplied:	No	
Easy fix?:	No	
Description		
<p>I would like to request that for any WMS / WMTS layers which have data security and where the authentication is not included in the connection parameters, that these either do not show up in the layer / tileset list or are greyed out.</p> <p>It brings confusion as it would assume that these layers are accessible, and if you want to use authentication to only display specific layers to limit the list, you still have to scroll through all layers.</p>
