Description

Hi,

When using the "Only show items inside current atlas feature" feature within a map composer, its state is not being saved.
Saving with the checkbox enabled, and reopening will show the checkbox disabled.

I've had a look through the .qgs save file and I cannot see anything that would suggest that its state would be stored within the
<ComposerLegend> tags.

I've tested this on both master and 2.18.9.

Many Thanks.
