QGIS Application - Bug report #16674

Locator Filters option: the "Configure" button is always disabled

2017-06-07 11:27 AM - Harrissou Santanna

Status: Closed Priority: Normal

Assignee:

Category: GUI

Affected QGIS version:master

Operating System: Windows 10

Pull Request or Patch shapplied:

Crashes QGIS or corruphs data:

Regression?: No

Resolution: invalid

Copied to github as #: 24573

Description

In the Settings --> Options --> Locator Filters tab, the configure button is always disabled, whatever I do. Is this expected?

History

#1 - 2017-06-07 12:44 PM - Nyall Dawson

- Resolution set to invalid
- Status changed from Open to Closed

It's only enabled when a locator can be configured, which none of the inbuilt ones can.
