QGIS Application - Bug report #16735
Python Console: typing _api should open the version API documentation and not the master's

2017-06-21 11:10 AM - Harrissou Santanna

Status:	Closed		
Priority:	Normal		
Assignee:			
Category:	PyQGIS Console		
Affected QGIS version:	2.18.9	**Regression?:**	No
Operating System:		**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	fixed/implemented
Crashes QGIS or corrupts data:		**Copied to github as #:**	24634

Description

In the input area of the Python Console, type **_api**
Normally, it should open the online API documentation of the QGIS version you are calling it from (e.g. qgis.org/api/2.18). Instead it opens the master API (qgis.org/api).

History

#1 - 2018-09-01 11:56 AM - Harrissou Santanna

- Resolution set to fixed/implemented

- Status changed from Open to Closed

Fixed in https://github.com/qgis/QGIS/pull/7087
