

QGIS Application - Feature request #16775  
GDAL Support For PostGIS Out-DB Raster

2017-06-30 05:51 PM - Osahon Oduware

Status:	Closed	
Priority:	High	
Assignee:	QGIS Translation Team	
Category:	Data Provider/PostGIS	
Pull Request or Patch supplied:	No	Resolution: duplicate
Easy fix?:	No	Copied to github as #: 24674

**Description**

Currently, QGIS-GDAL seems to be only able to display rasters that are stored in the database as it displays a black image for PostGIS Out-DB rasters as described in my post in the link below:  
<http://osgeo-org.1560.x6.nabble.com/QGIS-GDAL-OUT-DB-RASTER-SUPPORT-td5318735.html>

Please, I wanted to find out if there is any ongoing work towards providing GDAL support for PostGIS Out-DB rasters or any way to make QGIS display PostGIS Out-DB rasters.
