

QGIS Application - Feature request #16775

GDAL Support For PostGIS Out-DB Raster

2017-06-30 05:51 PM - Osahon Oduware

Status: Closed	
Priority: High	
Assignee: QGIS Translation Team	
Category: Data Provider/PostGIS	
Pull Request or Patch Supplied:	Resolution: duplicate
Easy fix?: No	Copied to github as #: 24674
Description	
<p>Currently, QGIS-GDAL seems to be only able to display rasters that are stored in the database as it displays a black image for PostGIS Out-DB rasters as described in my post in the link below:</p> <p>http://osgeo-org.1560.x6.nabble.com/QGIS-GDAL-OUT-DB-RASTER-SUPPORT-td5318735.html</p> <p>Please, I wanted to find out if there is any ongoing work towards providing GDAL support for PostGIS Out-DB rasters or any way to make QGIS display PostGIS Out-DB rasters.</p>
