- Status changed from Open to Feedback

- Priority changed from Normal to High

1) does in happens on master, as you say in the ticket details, or on 2.18.10 as you say in the description?

2) on 2.18.10 on the same platform and platform version, no issues here. Please attach sample data and exact steps to replicate.

#2 - 2017-07-03 10:01 AM - Didier Genier

Hello,

1) issue appear with 2.18.10 version (was not available in choice);
2) QGIS work well with rule-based style created before. Just when I attempt to modify/create a rule, all freeze and I have to kill process from console.

> *Data's and style :*

wihtout any issue here on both Ubuntu and Windows and qgis 2.18.10. I suggest to try on clean machine, with no 4rd party plugins active or installed.

#5 - 2017-07-25 07:44 PM - Giovanni Manghi

- Affected QGIS version changed from 2.18.10 to 2.18.11

#6 - 2017-07-25 08:25 PM - Giovanni Manghi

- Resolution set to not reproducable

- Status changed from Feedback to Closed

closing for lack of feedback.
