

QGIS Application - Feature request #16781

Rotated labels bounding box when editing

2017-07-02 11:48 AM - Christophe Damour

Status: Open	
Priority: Normal	
Assignee:	
Category: Labelling	
Pull Request or Patch supplied:	Resolution:
Easy fix?: No	Copied to github as #: 24680
Description	
<p>It is very difficult to move rotated labels that are very close to each other because their bounding box isn't rotated. This is easier to understand when actually tried.</p> <p>It would be easier if the bounding box was rotated the same angle as the label in order to fit the label's text. Please have a look at attached screenshots (existing and wished situation).</p>
