

QGIS Application - Bug report #16789

Unable to deactivate tooltips on some installation

2017-07-04 04:58 PM - Etienne MORO

Status: Closed	
Priority: Normal	
Assignee:	
Category: GUI	
Affected QGIS version: 2.18.10	Regression?: No
Operating System: Windows	Easy fix?: No
Pull Request or Patch supplied: No	Resolution: not reproducible
Crashes QGIS or corrupts data: No	Copied to github as #: 24688
Description	
<p>When you activate the tooltips, with the tooltips button, then it's impossible to deactivate the tooltips by clicking a second time on the tooltips button.</p> <p>The only way I found to deactivate tooltips is to click on another command button (click on the measurement button for example).</p>

- Status changed from Open to Feedback

Just tested on a clean Windows 7 testing VM, with a fresh 2.18.10 installation and it works as expected.

- File *QGis-PbTooltips.mp4* added

I've tried again on 7 PCs (1 PC with Windows 7 and 6 PCs with Windows 10) and I still have the problem with all of them. You'll find attached a little video which shows the problem.

Perhaps a problem of graphic card (Nvidia Quadro K3100M for the first PC, and Intel HD Iris 540 for the 6 other PCs).

Lots of my trainees and customers have the same problem. It's not a big bug, but it's just annoying.

#3 - 2017-07-05 04:18 PM - Giovanni Manghi

- Subject changed from *Unable to deactivate tooltips* to *Unable to deactivate tooltips on some installation*

- File *Recording #2.mp4* added

Attached a screencast of an installation where it works as expected.

I would suggest to disable or remove any 3rd party plugin (and restart qgis), my bet the cause is one of them.

#4 - 2017-09-25 04:38 PM - Giovanni Manghi

- Resolution set to *not reproducible*

- Status changed from *Feedback* to *Closed*

Closing for lack of feedback, please reopen if necessary.
