

QGIS Application - Bug report #16837

Attribut table form view: when selecting/filtering the form should show the first entry of the result according to sort rule

2017-07-10 04:25 PM - Andreas Neumann

Status:	Closed	
Priority:	Normal	
Assignee:	Matthias Kuhn	
Category:	Forms	
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution: fixed/implemented
Crashes QGIS or corrupts data:		Copied to github as #: 24736
Description		
<p>When selecting or filtering in the form view, the feature from before the selection/filter stays in the form.</p> <p>It would be more useful if the first match of the selection or filter according to the sort criteria would be displayed in the form.</p> <p>E.g. if the selection results in 10 results, the first result of the selection should be displayed in the form, and not the feature that was active before the selection/filtering.</p>		

History

#1 - 2017-10-23 10:57 AM - Andreas Neumann

- Assignee set to Matthias Kuhn

#2 - 2019-02-24 08:22 PM - Andreas Neumann

- Resolution set to fixed/implemented

- Status changed from Open to Closed

This is implemented already. Closing therefore.
