

## QGIS Application - Bug report #16865

### Unable to create new print composer

2017-07-13 09:11 PM - Michelle Roberts

<b>Status:</b>	Closed	
<b>Priority:</b>	Low	
<b>Assignee:</b>		
<b>Category:</b>	Map Composer/Printing	
<b>Affected QGIS version:</b>	2.18.10	<b>Regression?:</b> No
<b>Operating System:</b>	Windows 7	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	No	<b>Resolution:</b> not reproducible
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 24764
<b>Description</b>		
<p>Not sure if this is a local issue or a software issue.</p> <p>I am not able to add a new print composer because the Composer Title dialog box is blank, very small, and not sizeable. I am in need of composing a new map for a job. Any suggestions?</p> <p>Thank you!</p>

- Priority changed from Normal to Low
- Status changed from Open to Feedback

It is of course 99.999% a local issue. In your situation I would try remove the QGIS entries in Windows registry with regedit.exe: please note that this will reset QGIS as it would be just installed for the first time, but also will reset configurations, options, etc.

##### #2 - 2017-09-25 04:36 PM - Giovanni Manghi

- Resolution set to not reproducible
- Status changed from Feedback to Closed

Closing for lack of feedback, please reopen if necessary.
