QGIS Application - Bug report #16893
Processing batch process interface: no way to go back

2017-07-20 07:41 AM - Paolo Cavallini

Status:	Closed			
Priority:	Normal			
Assignee:	Alexander Bruy			
Category:	Processing/GUI			
Affected QGIS version:	3.6.0		**Regression?:**	No
Operating System:			**Easy fix?:**	No
Pull Request or Patch supplied:	Yes		**Resolution:**	
Crashes QGIS or corrupts data:	No		**Copied to github as #:**	24792

Description

The button "Run as batch process" in 2.18 opens a new popup, whereas in 3 changes the current one. New arrangement is IMHO nicer, but there is apparently no way of going back to non batch interface.
I think a "non-batch" button should be added for this purpose.

Still true in QGIS 3

#3 - 2019-01-30 06:21 PM - Alexander Bruy

This makes no sense as batch dialog contains multiple sets of parameters and all of them except one will be lost when returning to the normal algorithm dialog.

- Status changed from Feedback to Open

Even if missing the configs, I think it is more practical for the user to go back to the non batch interface instead of closing the alg and reopening.
