Easy fix?:	No	
Description		
<p>Hello,</p> <p>when a User apply Filter Legend to map canvas, this filter acts only on TOC and in map canvas.</p> <p>I think would be more usefully if the Filter could acts also in layer styling, to allow users to easily manage only filtered layers instead of all layers recorded in the feature.</p> <p>Many thanks in advance</p> <p>Best Regards</p>
