Pull Request or Patch supplied:	Resolution: not reproducible
Crashes QGIS or corrupts data:	Copied to github as #: 24863
Description	
<p>I would like apply some modification on my map, but I can't use the processing toolbox. I uninstall the software and set up with the new generation QGIS 2.18.11 but it's the same problem. I can't find tools for the map modifications, like merge. I try to use Grass tools but they disappeared from my toolbar.</p> <p>I hope I am enough specific and we could find solutions.</p> <p>Sincerely yours</p>

thank you for the answer and topic corrections.

I follow the instruction but I don't have this folder

I attach a document with sending error message received from the software

sincerely yours
