Affected QGIS version:	2.18.11	Regression?: Yes
Operating System:	Ubuntu 16.04	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: duplicate
Crashes QGIS or corrupts data:	No	Copied to github as #: 24906
Description Hello, I have installed QGIS 2.18.11 on Ubuntu 16.04. (Code-version c6d8827) with ubuntu-gis-dependencies. QGIS runs with gdal 2.2.1. QGIS 2.18.11 with gdal 2.1.3 reads jp2-Files very slow. QGIS 2.18.1 with gdal 2.2.1 reads Jp2 files quickly, but only a black rectangle is visible. The GDAL-Driver is JP2OpenJPEG. A other Driver for jp2 is not available on Ubuntu-Linux. Greetings Claas
