

QGIS Application - Bug report #17010

Error message if no field selected in per-field convex hull generation

2017-08-11 01:21 PM - Johannes Kroeger

Status:	Closed	
Priority:	Normal	
Assignee:	Victor Olaya	
Category:	Processing/Core	
Affected QGIS version:	2.18.11	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution: fixed/implemented
Crashes QGIS or corrupts data:		Copied to github as #: 24909
Description		
<p>I just forgot to choose a field in Processing's Convex Hull tool while I was trying to generate separate hulls per field value and was greeted with an non-explanatory error message:</p> <p>Algorithm Convex hull starting...</p> <p>float division by zero See log for more details</p> <p>Please make sure the user did select a field and alert them if not.</p>		

History

- #1 - 2017-08-13 10:08 PM - Giovanni Manghi
- Subject changed from "Useless" error message if no field selected in per-field convex hull generation to Error message if no field selected in per-field convex hull generation
- #2 - 2017-08-14 07:08 AM - Nyal Dawson
- Resolution set to fixed/implemented
 - Status changed from Open to Closed

This is fixed in 3.0 - the decision to use the per field mode is made by whether the user selects a field or not
