

QGIS Application - Bug report #17068

rotation map tool now produces reversed label orientation

2017-08-25 11:04 AM - Regis Haubourg

Status: Closed	
Priority: High	
Assignee: Nyall Dawson	
Category: Labelling	
Affected QGIS version: master	Regression?: Yes
Operating System:	Easy fix?: Yes
Pull Request or Patch supplied:	Resolution:
Crashes QGIS or corrupts data:	Copied to github as #: 24967
Description	
<p>Hi,</p> <p>I suppose that the recent cleanups to get rotation values homogeneous between symbol and labels are triggering that. So rotation map tool should now return some (360 - input value) to have the labels oriented like the preview show when rotating a label.</p>
