QGIS Application - Bug report #17070
saving a layer with boolean fields fails

2017-08-25 11:21 AM - Regis Haubourg

Status:	Closed		
Priority:	High		
Assignee:	Paul Blottiere		
Category:	Vectors		
Affected QGIS version:	master	**Regression?:**	Yes
Operating System:		**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	24969

Description

I have a postgres layer with a boolean field.

Save as gpkg fails in master with this message:

    Export to vector file failed.
    Error: unsupported type for field est_selective

using value maps substitution works.

- *Subject changed from saving a layer with boolean fields to gpkg fails to saving a layer with boolean fields fails*

- *Regression? changed from No to Yes*

In fact, shp are affected too, so all file types I suppose

#3 - 2017-08-26 09:55 AM - Giovanni Manghi

- Category changed from Data Provider/OGR to Vectors

Does it work as expected on 2.18.* ?

#4 - 2017-08-28 09:34 AM - Regis Haubourg

Yes, tested right now.

Boolean are converted to string fields with "f/t" values in it.

And BTW, saving takes ages in master when it's only a few seconds in release.
