Pull Request or Patch supplied:	No	**Resolution:**	up/downstream	
Crashes QGIS or corrupts data:	Yes	**Copied to github as #:**	24974	

Description

Hello Qgis users,

I am developing a plugin on QGIS 2.18.11 using Eclipse Oxygen and Pydev 5.9.2. I try to connect Eclipse with QGIS and to debug using the plugin Remote Debug. At first, connection is activated and it works correctly but after that, I get a minicrash dump.
Could you help me please ?

Thanks in advance.

Best regards,

History

#1 - 2017-08-26 09:57 AM - Giovanni Manghi

- Crashes QGIS or corrupts data changed from No to Yes

- Priority changed from Normal to High

- Status changed from Open to Feedback

Is the Remote Debug that crashes QGIS? The plugin is not updated in more than 2 years.

#2 - 2017-09-25 03:31 PM - Giovanni Manghi

- Resolution set to up/downstream

- Status changed from Feedback to Closed

Closed for lack of feedback, please reopen if necessary.
