<b>Easy fix?:</b>	No	<b>Copied to github as #:</b> 24980
<b>Description</b>		
It would be very helpful to add a close button to QGIS Commander. In order to close it, right now it's necessary to press the ESC key in the keyboard, but I had to read the documentation to figure this out. If the same process to open it it's repeated (Ctrl+Alt+D or Processing   Commander) the tool is not closed. The first time I opened it I had to reset the user interface to default settings to close it.		

History

#1 - 2017-08-27 07:22 PM - Giovanni Manghi

- Resolution set to wontfix
- Status changed from Open to Closed

Commander have been removed in QGIS 3.
