QGIS Application - Bug report #1709
GUI Problems in label dialog

2009-05-19 08:17 AM - bjpfei -

Status:	Closed			
Priority:	Low			
Assignee:	nobody -			
Category:	Data Provider			
Affected QGIS version:		**Regression?:**	No	
Operating System:	RedHat	**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**	fixed	
Crashes QGIS or corrupts data:		**Copied to github as #:**	11769	

Description

1.) Load a layer

2.) open layer properties and navigate to Labels

3.) Click display labels

Problem:

The gui doesn't refresh after clicking on display labels. You still have the attributes of data defined style on the right side of the gui and not the attributes of General which is selected on the left side. You first have to click some of the other points like Buffer, Position etc. After this you go back to General and have the right attributes.

thx for checking this
