QGIS Application - Bug report #17193
Editing of shapefile locked following clearing of a filter

2017-09-25 02:01 PM - Nigel Malcolm

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	Unknown			
Affected QGIS version:	2.18.12	**Regression?:**	No	
Operating System:	Windows 10 64 Bit	**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**	duplicate	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	25092	

Description

I an using QGIS 2.18.12 (64 Bit) and QGIS 2.14.11 (32 Bit) on a Windows 10 computer.

When I clear a filter - "Provider feature filter" (Layer Properties>General>Provider feature filter) from a shapefile, I am unable to edit that shapefile until I have closed the project and reopened it.

I have checked and this behaviour is the same on both the 32bit and 64bit versions of QGIS that I use
