

QGIS Application - Bug report #17206

Unable to add GeoJSON URI via Source type: Protocol

2017-09-27 05:36 PM - joe larson

Status: Closed	
Priority: High	
Assignee:	
Category: Vectors	
Affected QGIS version: master	Regression?: Yes
Operating System:	Easy fix?: No
Pull Request or Patch supplied: No	Resolution:
Crashes QGIS or corrupts data: No	Copied to github as #: 25105
Description	
In qgis-dev when adding a Vector layer with the Data Source Manager, Source type: Protocol, Type GeoJSON ...after providing a URI, it appears the 'Add' or 'Ok' buttons are not clickable. I have seen this in qgis-dev on Windows 7, Windows 10, and macOS 10.12.6.
